WHAT IS COMPULSIVE GAMBLING?

Compulsive gambling is an illness that causes the gamblers to experience irresistible urges to gamble. This is the term used by Gamblers Anonymous referring to a progressive gambling illness; it is also referred to as “problem” gambling or “pathological” gambling.

Our experience confirms that compulsive gamblers can neither control nor moderate their gambling activities, even after they express the desire to do so.

When compulsive gamblers reach the point where they are willing to examine loss of control over gambling and the unmanageability of their lives, they may finally be ready to accept help. This help can be found in Gamblers Anonymous.

GAM-ANON

Gam-Anon is a 12-Step self-help fellowship of men and women who have been affected by the gambling problem of a friend or loved one. We understand as perhaps few can. We are familiar with worry and sleepless nights, and promises made only to be broken.

We may have become fearful and uncertain as to how to cope with the deterioration in our lives and our relationships, the financial problems, and the debts caused by the gambling. We know that living with the effects of another's gambling can often be too devastating to bear without help.

We, in Gam-Anon, strive:

1. To welcome and give assistance and comfort to those affected by someone else's gambling problem.
2. To communicate Gam-Anon's understanding of compulsive gambling and its impact on our lives.
3. To share our experience, strength, and hope in coping with the gambling problem.
4. To use the Steps and Tools of the Gam-Anon program which nurture our spiritual and emotional growth and recovery.

With the help of Gam-Anon, we find our way back to a normal way of thinking and living, whether or not our loved ones continue to gamble. We believe that a change in our attitudes is of boundless help to us as well as to our gamblers.

Gam-Anon is not a religious organization or a counseling agency. It is not a treatment center nor is it allied with any other organization offering such services. No dues or fees are required. Membership is voluntary, requiring only that one's own life has been affected by someone else's gambling problem.

COULD YOUR CHILD BE A COMPULSIVE GAMBLER?

Parents (and educators) will list drugs, alcohol, bullying, sex, and grades among their concerns for their children. The list is incomplete if it does not include gambling. Could your child have a gambling problem or the beginnings of one? We know that many children are introduced to gambling at a young age, often innocently, since the adults in their lives have no knowledge of the potential consequences.

Gambling may be part of their parents' social lives or vacations, or perhaps members of the family gamble on sports, play poker, buy lottery tickets or "scratch offs", go to racetracks or casinos, or gamble on the internet. Children receive the message that gambling is great fun and if you are lucky or good at it, you can make lots of money gambling.

Even if there are none of these activities in the home, our children receive this message through a variety of media. Even seemingly harmless internet games introduce children to the "fun", "challenging", and "winning" experiences of gambling. Gambling is easily accessible on computers, tablets, and mobile phones in formats that many adults are not even familiar with.

Some children may be unaffected by all of this. It is very difficult to know in advance which ones may be affected. When the invisible line is crossed from social gambling to problem or addictive (compulsive) gambling, it is a life altering change for the gambler and loved ones. Compulsive gambling is not just about the money won or lost, but also about the drastic changes in behavior and the growing unmanageability of everyday life.

Our experience with our own compulsive gamblers has taught us that compulsive gambling can begin at any age. Many of our gamblers, men and women, began gambling in childhood. Based on our experience and the numbers of parents of teens and young adults joining our meetings, we believe that gambling has a place among the list of parents' concerns.

What are the signs that your child may have a problem with gambling?

1. Are you concerned about the amount of time your child spends on the computer, on mobile devices, watching sports, playing cards, etc., or how often these activities distract from family activities, sleep?
2. Are you uncomfortable with your child's friends or their activities together?
3. Are you aware of bets your child is making with friends or classmates?
4. Has your child lost interest in activities he or she once enjoyed?
5. Have your child's grades slipped or does your child miss school or classes?
6. Does your child work but never seem to have money?
7. Does your child have more money or unexplained money, or does your child spend money beyond his/her apparent means?
8. Have you experienced money or items missing from your home? Do you suspect your child might be stealing?
9. Has your child asked to borrow large amounts of money?
10. Do you find yourself rescuing your child from financial crises resulting from gambling?
11. Does your child have an intense reaction during sporting events when one team is either losing or winning?
12. Does your child promise to never gamble again – and then gamble?
13. Have you noticed changes in your child's personality, including mood swings?
14. Has your child become secretive?
15. Does your child lie about money or about gambling activities?

If you think your child may have a gambling problem, you are welcome to come to a Gam-Anon meeting. The Gam-Anon members, including parents, will share their experience with you. Gam-Anon is a fellowship of those affected by someone else's gambling problem whether or not the gambler acknowledges the problem.

QUESTIONS AND ANSWERS

How do I know if the gambling of my loved one is a problem?

The information on this website may help you determine if there is a gambling problem. You are welcome to attend any Gam-Anon meeting to listen to experienced members and ask questions. If there is no meeting in your area contact the Gam-Anon International Service Office at gamanonoffice@gam-anon.org or 718-352-1671.

What do we accomplish in Gam-Anon?

We attempt to find the answers to such questions as: What is my role as the loved one of a compulsive (problem) gambler? How can I help my gambler who is still gambling? How can I deal with my anger, fear, and resentment? Will I ever be able to trust the gambler again?

What is the cost of attending Gam-Anon?

There are no dues or fees. Members contribute what they can at their meetings to pay meeting expenses.

How can I be the greatest help to the gambler who joins Gamblers Anonymous?

Gam-Anon values the process of recovery defined by the Gamblers Anonymous (GA) program. Personal recovery in Gam-Anon includes an examination of our actions, behaviors, and attitudes as they affect our gamblers and ourselves. Understanding the Gamblers Anonymous program helps us to be supportive of our gamblers efforts in GA. Our hope is for recovery for everyone affected by the gambling, including the gambler.

Can I attend Gam-Anon if my gambler is still gambling?

Yes, of course. Many of our members have loved ones who are still gambling. Gam-Anon meetings help us realize that we are not alone with our problems. The Steps and tools of the program help us to take control of our lives in spite of the gambling and problems caused by the gambling. We use the Gam-Anon program to build our own inner core of strength and emotional maturity. When we understand the illness of compulsive gambling, and follow the Gam-Anon Steps and suggestions, the resulting change in our actions and attitudes may help the gambler realize that compulsive gambling is a problem and motivate an interest in bringing about a change.

What if there is no Gam-Anon meeting near to me?
